6. Note that some fields are Optional, however all other fields must be completed to proceed further with the application process. For example, all applicants must complete the Organization Information sections. The Company Name and Physical Address fields are self-populated based on information previously entered during the initial DUNS search. The question marks to the left of the field provide additional information when you click on them.

The screenshot shows a web browser window with the URL: <http://dunbr.com/usa/for/contractors/for/contractors/index.html>. The page title is "Request for New D-U-N-S Number". The form is titled "Request for New D-U-N-S Number" and includes instructions: "Any affiliated companies of the same address will not be affected if they are affiliated companies at the same address, please specify in the Mailing section." and "Complete the information below to obtain a new D-U-N-S Number for your company's physical location." Below the instructions, there are several sections: "Company Name" with fields for "Legal Name" (containing "CORP TEST INC"), "Legal Structure" (a dropdown menu with "Corporation" selected), and three "Tradeable Name" fields. The "Physical Address" section includes fields for "Street" (containing "100 Main Street"), "City" (containing "New York"), "State" (a dropdown menu with "NY" selected), "Zip Code - ZIP Code" (containing "10001"), and "Country" (a dropdown menu with "UNITED STATES" selected). - **Corporation** – A firm that meets certain legal requirements to be chartered by the state/province in which it is headquartered by the filing of articles of incorporation. A corporation is considered by law to be an entity separate and distinct from its owners. It can be taxed; it can be sued; it can enter into contractual agreements.
- **Government** - central, province/state, district, municipal and other U.S. or local government entities. Includes universities, schools and vocational centers owned and operated by the government.
- **Limited Liability Company (LLC)** - This is a type of business ownership combining several features of corporation and partnership structures. It is designed to provide the limited liability features of a corporation and the tax efficiencies and operational flexibility of a partnership. Its owners have limited personal liability for the LLC's debts and obligations, similar to the status of shareholders in a corporation. If your firm is an LLC, this will be noted in the organization's registration and licensing documents.
- **Non-profit** - An entity which exists for charitable reasons and is not conducted or maintained for the purpose of making a profit. Any money earned must be retained by the organization, and used for its own expenses, operations, and programs. Most organizations which are registered in the

host country as a non-governmental organization (NGO) rather than as a commercial business are non-profit entities.

Community based organizations, trade associations, community development councils, and similar entities which are not organized as a profitmaking organization should select this status, even if your organization is not registered formally in country as an NGO.

- **Partnership-** a legal form of operation in which two or more individuals carry on a continuing business for profit as co-owners. The profits and losses are shared proportionally.
- **Proprietorship-**These firms are owned by one person, usually the individual who has day-to-day responsibility for running the business. Sole proprietors own all the assets of the business and the profits generated by it.

8. One of the most important fields that must be filled in is the Primary SIC code field. (See screen shot below.) The Primary Standard Industrial Code classifies the business' most relevant industry and function.

I. 6 AIDAR 752.7101 VOLUNTARY POPULATION PLANNING ACTIVITIES (JUN 2008)

(a) Requirements for Voluntary Sterilization Program. None of the funds made available under this contract shall be used to pay for the performance of involuntary sterilization as a method of family planning or to coerce or provide any financial incentive to any individual to practice sterilization.

(b) Prohibition on Abortion-Related Activities.

(1) No funds made available under this contract will be used to finance, support, or be attributed to the following activities: (i) procurement or distribution of equipment intended to be used for the purpose of inducing abortions as a method of family planning; (ii) special fees or incentives to any person to coerce or motivate them to have abortions; (iii) payments to persons to perform abortions or to solicit persons to undergo abortions; (iv) information, education, training, or communication programs that seek to promote abortion as a method of family planning; and (v) lobbying for or against abortion. The term "motivate", as it relates to family planning assistance, shall not be construed to prohibit the provision, consistent with local law, of information or counseling about all pregnancy options.

(2) No funds made available under this contract will be used to pay for any biomedical research which relates, in whole or in part, to methods of, or the performance of, abortions or involuntary sterilizations as a means of family planning. Epidemiologic or descriptive research to assess the incidence, extent or consequences of abortions is not precluded.

(c) The Contractor shall insert this provision in all subcontracts.

(d) *Voluntary Participation and Family Planning Methods.*

(1) The Contractor agrees to take any steps necessary to ensure that funds made available

under this contract will not be used to coerce any individual to practice methods of family planning inconsistent with such individual's moral, philosophical, or religious beliefs.

Further, the Contractor agrees to conduct its activities in a manner which safeguards the rights, health and welfare of all individuals who take part in the program.

(2) Activities which provide family planning services or information to individuals, financed in whole or in part under this contract, shall provide a broad range of family planning methods and services available in the country in which the activity is conducted or shall provide information to such individuals regarding where such methods and services may be obtained.

(e) Requirements for Voluntary Family Planning Projects.

(1) A family planning project must comply with the requirements of this paragraph.

(2) A project is a discrete activity through which a governmental or nongovernmental organization or public international organization provides family planning services to people and for which funds obligated under this contract, or goods or services financed with such funds, are provided under this contract, except funds solely for the participation of personnel in short-term, widely attended training conferences or programs.

(3) Service providers and referral agents in the project shall not implement or be subject to quotas or other numerical targets of total number of births, number of family planning acceptors, or acceptors of a particular method of family planning. Quantitative estimates or indicators of the number of births, acceptors, and acceptors of a particular method that are used for the purpose of budgeting, planning, or reporting with respect to the project are not quotas or targets under this paragraph, unless service providers or referral agents in the project are required to achieve the estimates or indicators.

(4) The project shall not include the payment of incentives, bribes, gratuities or financial rewards to (i) any individual in exchange for becoming a family planning acceptor or (ii) any personnel performing functions under the project for achieving a numerical quota or target of total number of births, number of family planning acceptors, or acceptors of a particular method of contraception. This restriction applies to salaries or payments paid or made to personnel performing functions under the project if the amount of the salary or payment increases or decreases based on a predetermined number of births, number of family planning acceptors, or number of acceptors of a particular method of contraception that the personnel affect or achieve.

(5) No person shall be denied any right or benefit, including the right of access to participate in any program of general welfare or health care, based on the person's decision not to accept family planning services offered by the project.

(6) The project shall provide family planning acceptors comprehensible information about the

health benefits and risks of the method chosen, including those conditions that might render the use of the method inadvisable and those adverse side effects known to be consequent to the use of the method. This requirement may be satisfied by providing information in accordance with the medical practices and standards and health conditions in the country where the project is conducted through counseling, brochures, posters, or package inserts.

(7) The project shall ensure that experimental contraceptive drugs and devices and medical procedures are provided only in the context of a scientific study in which participants are advised of potential risks and benefits.

(8) With respect to projects for which USAID provides, or finances the contribution of, contraceptive commodities or technical services and for which there is no sub-contract or grant under this contract, the organization implementing a project for which such assistance is provided shall agree that the project will comply with the requirements of this paragraph while using such commodities or receiving such services.

(9) (i) The Contractor shall notify USAID when it learns about an alleged violation in a project of the requirements of subparagraphs (3), (4), (5) or (7) of this paragraph; and (ii) the Contractor shall investigate and take appropriate corrective action, if necessary, when it learns about an alleged violation in a project of subparagraph (6) of this paragraph and shall notify USAID about violations in a project affecting a number of people over a period of time that indicate there is a systemic problem in the project.

(iii) The Contractor shall provide USAID such additional information about violations as USAID may request.

(f) Additional Requirements for Voluntary Sterilization Programs.

(1) The Contractor shall ensure that any surgical sterilization procedures supported in whole or in part by funds from this contract are performed only after the individual has voluntarily appeared at the treatment facility and has given informed consent to the sterilization procedure.

Informed consent means the voluntary, knowing assent from the individual after being advised of the surgical procedures to be followed, the attendant discomforts and risks, the benefits to be expected, the availability of alternative methods of family planning, the purpose of the

operation and its irreversibility, and the option to withdraw consent any time prior to the operation. An individual's consent is considered voluntary if it is based upon the exercise of free choice and is not obtained by any special inducement or any element of force, fraud, deceit, duress, or other forms of coercion or misrepresentation.

(2) Further, the Contractor shall document the patient's informed consent by

(i) a written consent document in a language the patient understands and speaks, which explains the basic elements of informed consent, as set out above, and which is signed by the individual and by the attending physician or by the authorized assistant of the

attending physician; or

(ii) when a patient is unable to read adequately a written certification by the attending physician or by the authorized assistant of the attending physician that the basic elements of informed consent above were orally presented to the patient, and that the patient thereafter consented to the performance of the operation. The receipt of this oral explanation shall be acknowledged by the patient's mark on the certification and by the signature or mark of a witness who shall speak the same language as the patient.

(3) The Contractor must retain copies of informed consent forms and certification documents for each voluntary sterilization procedure for a period of three years after performance of the sterilization procedure.

The Contractor shall insert this Alternate I in all subcontracts involving family planning activity.
